Omschrijving

The Serien Lighting SML LED is a flexible wall lamp available in the surfaces polished, silver-, white- and black lacquered. The polished SML is offered as a separate article (SML LED polished aluminum). Every surface is available in the three sizes Small with a length of 15 cm, Medium with 22 cm and Large with 30 cm. Depending on the Size, there are built in different LED stripes. For the Small, it is a 10 Watt, for the Medium a 15 Watt and for the Large a 20 Watt LED stripe. Every size is offered with different colour temperatures.

The Medium and Large versions can be regulated via an external trailing edge dimmer. For all the three versions, a cover plate and a mirror adapter are available as optional accessories. Depending on the chosen lamp cover, the light of the SML is scattered symmetrically up and down (satinee/satinee) or scattered in one direction and in the other dimmed (satinee/raster).
