Omschrijving

The Ingo Maurer I Ricchi Poveri Bzzzz is a minimalist table lamp designed by Ingo Maurer in 2014. It is operated with an LED bulb that looks deceptively similar to a conventional light bulb and seems to be held by only two wires. The light source is surrounded by a dragonfly made of anodised aluminum. The bulb is a special bulb with a power of 5 Watt, which is exclusively produced for Ingo Maurer GmbH and can only be used in the I Ricchi Poveri Bzzzz with LED bulb.

The I Ricchi Poveri Bzzzz is available with red, blue or green dragonfly. The brightness can be regulated by a cord dimmer with a slider. When dimmed, the light colour of the lamp changes to a warmer tone (from 2,700 Kelvin to 2,000 Kelvin extra warm white) thanks to the dim to warm technology.
