Omschrijving

The Next FlapFlap Single Pendant looks like a table lamp, but it is suspended as a pendant lamp from the ceiling on an invisible reinforced, curved cable. The lampshade made of polycarbonate is individually adjustable. The pendant lamp is regulated with an on / off switch on the supply line. The Flux canopy makes the lamp easy to install. The cable can be shortened if necessary. A halogen lamp with a maximum power of 33 watts or a suitable LED with a maximum of 6 watts can be used.
