### Omschrijving

The Ingo Maurer Birdie's Nest LED is a ceiling light with ten light arms. These light arms can be individually stretched and bent. Depending on the extension of the arms, the lamp has a diameter between 50 and 95 cm. Each arm has a wing pair of goose feathers attached to it. The lamp includes ten LED special lamps with 1.5 watt output each and a colour temperature of 2,700 Kelvin extra warm white. The cables of the arms are transparent. On-site dimming of the ceiling light is possible.
