Omschrijving

The Anglepoise Original 1227 Giant Pendant emits its light directly downwards. The shape of the lamp shade is reminiscent of the Original 1227 lamp, first designed in the 1930s. With a shade diameter of 45 cm, this pendant lamp is significantly larger. The height of the lamp shade is 47 cm. The lamp is available in the surfaces satin jet black, glossy jet black, alpine white, citrus yellow, crimson red, marine blue and slate grey. Except for the satin black surface, all others are glossy. The lamp is also available in special colours on request. The lamp shade is made of aluminum, the canopy is chrome-plated for each version. The cable with a maximum length of 400 cm can be shortened if necessary. The pendant lamp can be dimmed on site and can be operated with a high-voltage halogen lamp or an LED retrofit as light sources.
