Omschrijving

The Stilnovo Quad P12 is a plastic structure, consisting of twelve square shapes in die-cast aluminum arranged in a circular pattern. Designed by Pio and Tito Toso, this designer pendant lamp with LED sources emits indirect light that softly illuminates the ceiling and spreads into the surrounding space. The circular branched design makes it suitable for installation in lobbies and common areas with medium height ceilings. The pendant lamp can also be dimmed with an optional Casambi module via Smartphone App.
