| materiaal                  | aluminium, ijzeren, polycarbonaat                                                          |
| kabellengte                | 300 cm                                                                                     |
| LED                        | inclusief                                                                                  |
| Kleurweergave-index        | 90                                                                                         |
| Kleurtemperatuur in Kelvin | 3.000 warm wit                                                                             |
| prestaties van het systeem | 7 x 12 Watt (max.)                                                                         |
| Totale lichtstroom in lm   | 762                                                                                        |

### Omschrijving

The three lamps of the Stilnovo 2Nights P3 can be suspended at different or the same height to each other. This allows the lighting to be varied individually. The cylindrical lamp heads are made of aluminum and are available in four versions:

- Version 1: Lamp heads white
- Version 2: Lamp heads black
- Version 3: Lamp heads rose gold
- Version 4: Lamp heads gold
