### Omschrijving

The Foscarini Twiggy LED MyLight floor lamp has a lamp shade that can be adjusted in height with counterweights. This means that the light can be constantly re-aligned. The shade emits the light both downwards and upwards. This floor lamp is available in the surfaces crimson red, white, black, graphite and greige (a mixture of grey and beige). LEDs are integrated as illuminants, which were developed by Foscarini in such a way that the light nuance corresponds to the colour temperature of a halogen light source.

The floor lamp Twiggy LED MyLight is regulated and dimmed via Bluetooth with Casambi App by Smartphone or Tablet (IOS, Android). In this way, the luminous intensity can be regulated from 0-100% without the need for new cabling, switches, devices or Internet connections. The lamp is only installed and connected to a smartphone etc. via Bluetooth. No further configuration by qualified personnel is required. On request, extension arms with a length of 40 cm each are available to extend the reach and height of the lamp. The floor lamp is also offered by Foscarini as a lamp with cord dimmer, optionally with halogen bulbs or integrated LEDs.
