

Vistosi

Bolle SP 35

Oberfläche

- doorzichtig
- wit

Version

- E27
- LED

Technical details

Land van herkomst	 Italië
Fabrikant	Vistosi
Ontwerper	Barbara Maggiolo
jaar	2003
Beschermingsklasse / IP-bescherming	IP20
Leveringsomvang	Leuchtmiddel/Bulb
voltage geschiktheid	110 - 240 Volt
Diameter in cm	35
materiaal	kristalglas, metaal
kabellengte	200 cm
Hoogte-instelling	hoogte bepaalbaar
dimmen	dimbaar op locatie
Dimensions	H 34 cm Ø 35 cm

Omschrijving

The Vistosi Bolle SP 35 pendant lamp has a lamp shade made of crystal glass. The characteristic texture of this series is created by the Balaton technique: air bubbles are enclosed in the glass during processing. The resulting effect multiplies the reflections on the surface of the sphere. This lamp emits the light into the room and also directly downwards.

The Bolle SP 35 is available in crystal transparent and white. The metal parts are satin nickel-plated. This pendant lamp is available in two versions: as an E27 or as an LED lamp. The E27 lamp can also be operated with LED retrofits. The LED lamp has an integrated LED with a colour temperature of 2,700 Kelvin warm white and can be dimmed on site with a trailing edge phase dimmer. On request, the LED lamp is also available with a colour temperature of 3,000 Kelvin warm white and 0-10 Volt dimmable. The cables can be shortened if necessary. With the three ceiling hooks supplied, the pendant lamp can also be mounted independently of the power outlet.
