## Omschrijving

The Serien Lighting Cavity Suspension L pendant lamp has a lamp shade with a height of 13.4 cm and a diameter of 12.5 cm. It emits its light directly downwards. The LED is recessed in the lamp, so the light is shielded from the side and emitted without glare. The total height of the lamp can be determined between 40 cm and 200 cm. The lamp is therefore suitable for ceiling heights of up to 300 cm.

The Cavity Suspension L is made of aluminum and is available in black, white, aluminum gloss finish and bronze finish. The canopy always has the matching finish to the lamp. The integrated LED can be replaced on site if necessary and has a colour temperature of 2,700 Kelvin extra warm white. It can be dimmed on site with a leading or trailing edge phase dimmer. On request, the pendant lamp is also available with a colour temperature of 3,000 Kelvin warm white and as a DALI dimmable lamp.
