## Omschrijving

The Knapstein YUNA-W wall lamp has a rotating lamp shade that can be realigned at any time. The lamp shade contains two light sources, one of which radiates light upwards. The other illuminant mainly emits light downwards and sideways into the room. The YUNA-W from Knapstein is available in matt nickel or black. Its lamp shade made of high-quality chintz is offered in the colours white, spruce blue and foggy grey. LED retrofits are supplied for the E14 and E27 sockets in the lamp shade.
