

# less'n'more

## Jules Verne Battery Light JU-Y

### Leuchtenkopf

- gepolijst aluminium
- glanzend wit
- wit mat
- glanzend zwart
- matzwart

### Technical details

Land van fabricage	 Duitsland
fabrikant	less'n'more
ontwerper	less'n'more
jaar	2019
bescherming	IP43
Omvang van de levering	LED
voltage geschiktheid	110 - 240 Volt
materiaal	aluminium, glas, hout, leder
stralingshoek	25 - 100 Graad
hoogteverstelling	hoogte verstelbaar
dimmen	Touch Dimmer op de lampkop
Wattage	4,8 W
LED	inclusief
Kleurweergave-index	90
Lichtstroom in lm	600
Kleurtemperatuur in Kelvin	2.700 extra warm wit
kandelaar Dimensions	lengte 27, breedte 22 cm
lampkop massa	9 cm
bulb vervangen:	ter plaatse zelf
Dimensions	H 85 - 135 cm

### Omschrijving

The Less'n'more Jules Verne Battery Light JU-Y is a cordless floor lamp with a rechargeable battery. It can be recharged via the USB cable supplied. The battery lasts for at least eight and a half hours. The lamp base made of solid oak wood is ideal for carrying books, for example. The lamp head of the Jules Verne floor lamp is made of aluminum and can be positioned as desired. It can be rotated by 360 degrees and tilted by 135 degrees. The lamp can be adjusted in height from 85 cm to 135 cm by adjusting the lamp rod. A leather loop on the lamp rod is used for easy height adjustment. A push button is integrated at the lamp head with which the lamp can be switched and dimmed.

The lamp head in glossy black is made of aluminum. The lamp rod is always in aluminum. The beam angle of the light can be adjusted between 25 and 100 degrees, for this it is only necessary to turn the glass lens out of or into the lamp head. With a larger beam angle, the light is distributed over a larger area. The heat generated when the lamp is switched on is optimally dissipated by the head, so the beam angle of the light can be adjusted at any time. The integrated light source is an LED with a colour temperature of 2,700 Kelvin extra warm white.
