Omschrijving

The Less'n'more Aichinger Mimix Book Shelf AI-M has a recessed spotlight made of aluminum. The book case is made of oak wood and has a pull-out bookmark made of satin-finished stainless steel. The Mimix lamp head of the recessed spotlight has a 100 degree beam angle, so that the light is emitted directly downwards and a cone of light is created on the wall. The Aichinger Mimix Book Shelf AI-M can be connected with a transparent supply line with dimmer (230 volts) or optionally directly to a power connection on the wall. Less'n'more also offers the Aichinger book shelf with an Athene or Zeus recessed lamp.
