Technical details

Land van fabricage	 Duitsland
fabrikant	less'n'more
ontwerper	less'n'more
bescherming	IP43
Omvang van de levering	LED
voltage geschiktheid	230 - 240 Volt
materiaal	aluminium, glas, textiel
stralingshoek	25 - 100 Graad
hoogteverstelling	hoogte bepaalbaar
dimmen	dimbaar op locatie met faseafsnijding dimmer
Wattage	4,8 W
LED	inclusief
Kleurweergave-index	90
Lichtstroom in lm	600
Kleurtemperatuur in Kelvin	2.700 extra warm wit
luifel Dimensions	7 cm
lampkop massa	7 cm
bulb vervangen:	ter plaatse zelf
totale hoogte	312 cm

Omschrijving

The Less'n'more Athene Pendant Light A-BPL has a lamp head with a diameter of 6.5 cm. The lamp head is made of aluminum and contains a focusable glass lens. The beam angle of the light can be adjusted continuously between 25 and 100 degrees by turning the glass lens out of or into the lamp head. With a larger beam angle, the light is distributed over a larger area.

The lamp head and canopy are available in the surfaces aluminum and black. The canopy has a diameter of 6.5 cm and is made of aluminum. As standard, the Athene pendant lamp is mounted on the ceiling as a surface-mounted lamp; with a mounting plate offered as an accessory, the lamp can also be mounted on a flush-mounted box. On request, the lamp is also available as a recessed lamp with a mounting plate that has a diameter of 10 cm.

The total height of the Athene Pendant Light A-BPL is a maximum of 312 cm, if required, the cable can be shortened. The cable is offered in the colours white, black and red. On request, the lamp is also available with other cable colours. As illuminant, an LED with a colour temperature of 2,700 Kelvin extra warm white is integrated. The Athene pendant lamp from Less'n'more can be dimmed on site with a trailing edge phase dimmer.
