### Omschrijving

The Licht im Raum Square 310 LED is a pendant lamp that is suspended from four cables. It has a length and width of 31 cm each. Its four lenses with LEDs are arranged squarely in the lamp body and can be swivelled within. The light is emitted evenly and focused downwards through these four lenses. The lenses each have a diameter of 67 mm. The lamp can be regulated via a rotary dimmer on the lamp.

The Square 310 LED is made of high-quality stainless steel or brass, depending on the surface. It is available in the following surfaces: brushed stainless steel, hand-polished stainless steel, matt black, white, natural brass and black / gold. The cables with a maximum length of 200 cm can be shortened if necessary.
