Opis

The Anthologie Quartett Crystal Rain Pendant Lamp round is designed by Rainer Krause and Michael von Jakubowski. The appeal of this round pendant lamp is in its glossy combination of brilliant crystal glass and a handmade mirror-polished stainless steel structure. Unlike the other lamp Collections Cellula and Jahreszeiten (with diverse hand-polished crystals), the crystal glasses for the light Crystal Rain are machine-polished with a very high standard.

The series Crystal Rain by Anthologie Quartett consists of round and oval pendant, ceiling and wall lights. The diameter of the round pendant lamp Crystal Rain is optional 30, 45, 60, 75, 90 or 120 cm. Note: by using retrofit sockets (G9 or E14), state-of-the-art light sources can also be used in the future. In terms of sustainability, the lamp can therefore shine in its light for many years to come.
