### Opis

The Catellani & Smith Syphasfera Set 1 consists of a complete, ready-to-connect outdoor floor lamp with all the necessary accessories. The set includes: a ground spike, an extension cable with a length of 500 cm and a driver required for operation. The connection cable for the power connection must be provided by the customer. The light has a spherical glass with a diameter of 8 cm. The glass is available in clear or unevenly textured. With clear glass, the light is emitted evenly in all directions. The uneven glass creates light reflections on the glass when switched on. With its ground spike, the Syphasfera can be fixed up to 25 cm into the ground. The Syphasfera Set 1 is available with a light in heights of 60 cm, 75 cm, 105 cm or 135 cm (height without spike).

The Syphasfera outdoor floor lamp has an IP44 protection rating and is therefore protected against splashing water on all sides and solid foreign bodies with a diameter of 1 mm or more. With an IP65 protection rating, its light rod is dustproof and protected against strong water jets from any angle. The driver and extension cable have IP67 protection against temporary submersion. Syphasfera also offers other sets consisting of several complete, ready-to-connect lights.
