

Knapstein

MARISA-60

Oberfläche

- nikiel
- czarny
- brąz

Technical details

Kraj produkcji	 Niemcy
producent	Knapstein
projektant	Knapstein
rok	2021
ochrona	IP20
zakres dostawy	LED
napięcie przydatność	230 - 240 Volt
tworzywo	mosiądz
regulacja wysokości	z regulacją wysokości
ściemnianie	kontrola gestow
Moc w watach	73 W
LED	łącznie
Wskaźnik oddawania barw	>90
Strumień świetlny w lm	9.116
Temperatura barwowa w stopniach Kelvina	2.200 - 3.000 regulowany
wymiana żarówek:	u producenta / w fabryce
wysokość całkowita	70 - 170 cm
Dimensions	H 2,8 cm B 21 cm L 61 cm

Opis

The Knapstein MARISA-60 is a rectangular pendant lamp with a length of 60.6 cm and a width of 20.6 cm. The profile is 2.8 cm high and 1.8 cm wide. By pulling or lifting the lamp, the total height of the lamp can be adjusted continuously between 70 cm and 170 cm. The lamp can also be suspended from a sloping ceiling. This pendant lamp emits its light upwards and downwards at the same time. The uplight and the downlight can be switched separately by gesture control and dimmed continuously. Using gesture control, it is also possible to adjust the light colour for the uplight and downlight to a warmer tone (between the colour temperature of 3,000 Kelvin warm white and 2,200 Kelvin extra warm white). All dimming and light colour settings are saved via memory function and automatically reset the next time the light is switched on.

A wiping hand movement in the sensor area switches the lamp on or off. To dim the light, the hand is held in the sensor area for a longer period of time. The lamp flickers briefly after the dimming process is completed. Afterwards, the desired light colour can be set by again holding the hand in the sensor area for a longer period of time. The MARISA-60 is available with a matt nickel, black or bronze effect surface. On request, the MARISA is also available in other lengths or surfaces. Its ceiling canopy has no visible screws as it is held in place by magnets.

Not only individual in the adjustment of light colour and brightness, but also in sizes. This lamp is also offered with a length of 100.6 cm as MARISA-100, including the proven height adjustment. Due to its rectangular design, the lamp series provides e.g. a dining table with a much greater illumination than its actual design would suggest. With a pendulum height of approx. 60 cm above the edge of a dining table with 100 cm, the lamp illuminates more than its actual design.
