Opis

The Domus Zep 9 Grey has a slender silhouette and impressively combines pure design and innovative technology. The end pieces of the pendant lamp are framed by two solid shaped parts made of oak. From the outside, the lamp is in grey, from the inside in wool white.

The Zep 9 pendant lamp provides an even illumination and absolute glare-free light. The lamp is suspended with two cables and can be individually set in its total height during installation. The Zep 9 is operated with a power-efficient, dimmable LED that has a colour temperature of 2,700 Kelvin extra warm white. The integrated LED is characterised by very good colour rendering with a high colour rendering index of Ra > 92. The Zep 13 with a length of 130 cm is also offered from the series.
